

AVG VPN Review

If you are planning on buying a VPN, you should first of all know whether this kind of software works and the particular price is. AVG VPN is far more high-priced than its competitors, but it does come with a 30-day money-back guarantee. However, you need to contact customer support staff considering the reason for the cancellation.

To begin with using AVG VPN, you should give your primary and last-name and email address. Then, wait for a few minutes before the installation procedure begins. A client support consultant will answer the question to the best of their ability. This services is not available around the clock, and that means you may have to wait a while before getting an answer. You can also get in touch with the community support page in AVG's site for more information.

AVG VPN servers happen to be spread across 37 countries, with most of them in Europe and The usa. The company also has one server in Johannesburg. It also provides eight locations in Asia, including Sydney, China, and New Zealand. However, the majority of countries possess a limited quantity of servers and may even experience a lot of resource disadvantages. This will cause a slow Internet connection on busy days.

If you need a VPN for any specific system, AVG has apps with regards to Windows, MacOS, iOS, and Android. Nevertheless, the iOS and Google android apps are less flexible. Although the company does not have chat support, the customer service staff is usually responsive. You can contact you're able to send identity guard family plan reviews customer service team by using email or through their particular COMMONLY QUESTION page.
